

FiltoClear

New generation of your favorite pressure filter, redesigned with you in mind

Metal Clamping Ring

Improved closure mechanism with new metal clamping ring and simple lever function.

New UVC Housing

High-quality UVC housing protects the ballast from sunlight and moisture. UVC power has increased on all new models.

2-Way Valve

2-way Valve makes for easy and quick cleaning. Simply turn the valve a quarter turn to start cleaning.

Easy to Replace UVC Bulb

The UVC bulb can be replaced during operation, no need to switch off the filter or remove the quartz glass sleeve.

Optimized Cleaning Mechanism

Improved filter sponges, handle and sponge supports help to make cleaning more effective.

Easy to Disguise

Redesigned FiltoCap in Stone Grey color perfectly camouflages all three FiltoClears in the landscape.

- In-line pressure filters offer biological and mechanical filtration that can be located remotely
- Oase FiltoClear provides mechanical and biological filtration with ultraviolet clarification (UVC)
- Compact, high-capacity filter is perfect for Fountain, Formal Spillway, Pond-free and Water Garden applications
- The high quality, impact resistant body can be buried to the clamping ring
- 3 densities of replaceable filter foams, new plates and extra supports improve cleaning function and ensure long service life
- Patented UVC Cleaning Rotor keeps quartz glass clean for better transmission of UV light (FiltoClear 5200 & 8200 only)
- 2-way Valve backflushes filter and directs waste with Easy-Clean Technology, no need to open filter or remove the cover
- Monitor UVC, filter performance and pollutant level and change UV lamp all without opening filter
- Newly developed bypass technology ensures constant water flow and prevents the filter from becoming clogged.

REPLACEMENT UVC BULBS	
ITEM	DESCRIPTION
41011	Replacement Bulb UVC 24W
