

PondJet Eco Premium

Smart floating fountain utilizing Pulse 6 & Oase Control technology

Pulse 6 technology - 35% More Efficient

Powered by the Aquarius Eco Premium pump featuring new motor technology with more magnets, creating less vibration, make these motors 35% more efficient than the previous model

Controllable with Oase Control App

Control pump flow, lighting (sold separately) and Dynamic Flow Control (DFC) setting via OC connection through the Oase Control App. Also compatible with Oase Eco Control (sold separately)

Nozzle Options

PondJet Eco Premium comes with a built in nozzle but also accepts any of our 1" nozzles for a variety of display options.

Dynamic Flow Control (DFC)

DFC enables demand-oriented power consumption for changing water patterns and various fountain heights. Unlock all 12 water patterns with the Oase Cloud Controller (sold separately)

RGB Lighting (sold separately)

Add color and nighttime atmosphere with the Floating Fountain Illumination Set. Control lights with the Oase Cloud Controller & Oase Control App.
