

# PondoVac 5

*Pond and pool vacuum for uninterrupted, full power cleaning*

## Wastewater discharge pump

Suction pump runs simultaneously, allowing for non-stop vacuuming. Integrated waste pump empties the container continuously during use.

## Drain with quick connection

On the outlet side, the PondoVac 5 has a plastic quick connect for a reliable and watertight seal, and easy removal for storage.

## Hand regulator

For adjusting the suction power, based on water depths

## Pre-filter bags

Larger particles such as pebbles or leaves are retained in the pre-filter bag. The zippered bag makes for easy emptying.

## Large commercial wheels

Larger wheels (6") ensure stable movement through rough terrain as well as low-noise when in operation.

PondoVac 5 (48080)

# PondoVac 5

ITEM	48080
DESCRIPTION	PondoVac 5
WATTS	1800
MAX FLOW	2100 gph
MAX SUCTION DEPTH	7'
CORD LENGTH	25'
DIMENSIONS	17¼"L x 16¾"W x 28¼"H
SUCTION HOSE	16'
DISCHARGE HOSE	33'
TANK VOLUME	8¼ gal
INCLUDES	4 aluminum tubes, 1 transparent suction tube, 5 suction nozzles, debris collection bag, internal coarse debris collection bag
WARRANTY	2-year + 1

- OASE PondoVac 5 features uninterrupted vacuuming with continuous waste discharge
- Two pump system simultaneously vacuums while integrated waste pump continuously empties tank
- Can be used for cleaning ponds and pools, as well as a wet vacuum around the home
- Highly efficient suction depth of 7' due to high performance 1800 W motor with optimized blade design
- Suction capacity up to 2100 gph, depending on the implementation conditions
- Transparent suction tube for easy visual inspection
- Wheeled chassis with 6" commercial wheels ensure stable movement through rough terrain
- Adjustable handle and suction tube sockets for fast and convenient transportation of attachments

## Included Nozzles

### Adjustable floor nozzle

This universal nozzle (0.1-0.5") removes pond floor debris without vacuuming up the gravel.

### String algae nozzle

With this nozzle, strands of string algae can be separated and easily removed.

### Wide area nozzle

With rollers, integrated brush and weight for large areas such as in pools. Ideal for general maintenance.

### Brush nozzle

For corners and stubborn debris.

### Wet suction nozzle

Wet suction for indoors and outdoors.
